2. **Foundations of Coaching Softball**

For Softball Canada members wishing to become a certified coach, the first step is The Locker, where Softball Canada will be hosting our e-Learning modules. This engaging, interactive online training is the start to getting the information you need to be a successful coach, and it's all done at your convenience wherever you access the internet. Softball Canada has moved to a blended learning approach for our coach training and education program where coaches will complete online training prior to attending a National Coach Certification Program (NCCP) face-to-face workshop.
